

LCBO

Let's get together.

Transportation Traffic Report:

An update on global situations that may affect product flow.

Week of: January 24, 2024

GLOBAL PULSE

Israel

- The flow of freight out of Israel continues to be impacted by the conflict and further developments remain unpredictable.

South America- Argentina and Chile

- Severe drought in the Panama Region continues to create a low water situation in the Panama Canal resulting in reduced vessel traffic and draft restrictions. This note is for awareness only as LCBO freight has not been impacted to this point.

Continued issues in the Red Sea/Suez Canal region continue to affect the flow of goods as steamship lines elect to avoid the area, altering service routes and transit times. We will provide updates and advise accordingly if LCBO freight is impacted.

North America

- There are currently no North American port disruptions that are impacting LCBO orders.

U.S. PORTS

- Philadelphia – 7-day dwell
- New York/NJ – 7-day dwell

CANADIAN PORTS

- Halifax, NS- 5-day dwell
- Saint John, NB- 5-day dwell
- Montreal, PQ- 5-day dwell
- Vancouver, BC- 9-10 day dwell

This is a general information circular designed to alert members of the trade to global issues which may affect product flow. For detailed information regarding the status of product shipments please contact your Specialty Services Customer Service Representative or Inventory Manager.
