With the implementation of the additional Promo programs into the Promo Tree, Category Management will no longer be allocating inventory for these programs and stores will only receive inventory based on their Default Management settings.

Therefore, it is imperative you review your Min. settings on these programs to ensure a "Ready-for-Business" level of inventory. Please review the new Default Management screen and its' Min. settings. If left unadjusted all the new promo programs have a min setting of either 0 or 1 case which will result in the system suggesting only 1 or 2 cases. Consequently, it is essential these are reviewed and change if required.
